

# ***Physical & Environmental Science Bulletin***

Volume 6, Number 1 & 2, May & December 2018

## **Contents**

|                                                                                                                                           |         |
|-------------------------------------------------------------------------------------------------------------------------------------------|---------|
| <b>Rough Surface Scattering Models</b><br>ROSHAN KUMAR CHOUDHARY                                                                          | 1 – 4   |
| <b>Attenuation in Acoustic Pressure Level in Air - Water Vapour Mixture</b><br>KUMAR SANJEEV                                              | 5 – 8   |
| <b>Ultra wideband Application in Monopole Patch Antenna</b><br>BINOD KUMAR JHA and GOPAL CHANDRA THAKUR “PRAKASH”                         | 9 – 12  |
| <b>Analysis of coupling Effects between Human Head and cellular Phone Antennas</b><br>LALIT KUMAR JHA                                     | 13 - 16 |
| <b>Study of a New Multitasking Fractal Shaped Antenna</b><br>LAL BABU ROY                                                                 | 17 - 20 |
| <b>Study of Electronic Spectra of Heterocyclic Compound with 6 atoms<br/>&amp; 6 – <math>\pi</math> electrons</b><br>SURENDRA KUMAR SINGH | 21 - 26 |
| <b>Intermolecular Hydrogen Bond in Aromatic and Quasi Aromatic Compound</b><br>SAROJ KUMARI                                               | 27 - 30 |
| <b>Seasonal Variations in Aquatic, Aerial and Total Oxygen update in<br/>Channa punctatus</b><br>KAPIL KUMAR                              | 31- 34  |
| <b>Experimental Studies on the Effect of Some Hormones on Salinity Tolerance<br/>in Anabas Testudineus</b><br>MANYATA KUMARI              | 35 - 36 |
| <b>Wetlands for Cultivation of Food Production for Fertile Soils: A Review Study</b><br>PREETI PRATYUSHA                                  | 37 - 40 |
| <b>Impacts of Pytheriods (Synthetic Pesticides) in Behaviour and Activity<br/>of Channapunctatus (Bloch)</b><br>MADHU MEENAKSHI           | 41 – 44 |

|                                                                                                                                             |         |
|---------------------------------------------------------------------------------------------------------------------------------------------|---------|
| <b>Diseases and Parasites affecting Fish Potential in Mithilanchal</b><br>DIPTI KUMARI                                                      | 45 – 46 |
| <b>New record of Draparnaldiopsis indica Bharadwaja from North Bihar</b><br>RANJANA KUMARI                                                  | 47 - 48 |
| <b>Relationship between Body Weight and Oxygen Consumption in Channa Punctatus: An Air Breathing Fish</b><br>KAPIL KUMAR                    | 49 – 54 |
| <b>Metabolic Effects of Epinephrine and nor Epinephrine in the Anabas Testudineus at the Temperature Stress Condition</b><br>MANYATA KUMARI | 55 – 56 |
| <b>Green's Matrix for Boundary Value Problem Associated with Matrix Differential Operator</b><br>GIRIJA NANDAN PRASAD                       | 57 – 60 |
| <b>Study of General Reference Frame and their Multiple Analogous</b><br>SHAHID AZAM RABBANI                                                 | 61 – 64 |
| <b>The Role of Fuzzy Sets in Mathematics</b><br>RANJEET KUMAR JHA and HITESHWAR SINGH                                                       | 65 – 66 |
| <b>Vedic Maths Tricks Make Our Life Easier</b><br>ARTI KUMARI                                                                               | 67 – 70 |
